To Whom It May Concern

Dear Sir/Madam:

**RE: JENNIFER LEE**

Jennifer Lee has worked for me for more than a year and a half until my recent sale of my law practice.

Jennifer has shown a lot of dedication in her work. She is attentive to detail. She is a self-starter who is capable of working on many varied tasks on her own with minimum instruction. She has worked on litigation files as well as on creditor-debtor issues, in the corporate field and on the administration of estates.

She inter-relates well with the public in general and has demonstrated an ability to gather the information necessary to bring long-standing issues to a satisfactory resolution. On one of her first files, her task was to locate various interested parties residing all over Canada and the US so that they could be served with a court application. She was able to do this in a number of innovative ways, which brought about a positive result.

She is also a friendly and naturally upbeat person who has a good sense of humour.

I have enjoyed working with Jennifer immensely because of her work ethic, her attitude and her professionalism. If you require any further information, please contact me.

Yours truly,

Louis E. Stringer
